## Whole House Filtration Solutions

The ultimate method of protection for your home and family, the Whole House Water Filtration System is a dual tank system that provides extraordinary performance and longevity of service.

Like the other TWT filtration methods, the TWT Whole House Water Treatment System employs patented KDF technology. The system and media provide a bacteriostatic environment designed to remove chlorine, lead, volatile organic chemicals, hydrogen sulfide and sulphur, herbicides, pesticides, chemical fertilizer residues, trihalomethanes, and many other pollutants. These filters remove odor and restore the taste and clarity of municipally treated water.

Where hard water conditions exist, the system...

- Improves water quality and taste
- Reduces electricity usage, allows more efficient heating operation
- Reduces detergent and soap consumption

# RUST-ERASE IRON FILTRATION SYSTEM

The Rust-Erase iron filter system is designed to effectively eliminate rust from your water supply economically and thoroughly. No more unsightly rust stains in the toilet, tub and sink., the laundry will be cleaner, too! The Rust-Erase Iron Filter works automatically. Every drop of water coming through the line is filtered to remove rust and other particles. The pre-set timer periodically activates the back-wash mechanism which keeps the filter medium fresh and effective for many years.
