Component List

1. **Stainless Steel Base Skid**
2. **One H.P. pump with a 50 ft.Head, self priming**
3. **One strainer basket**
4. **Two 10 micron bag filters**
5. **One stainless steel 30" carbon filter or One 40" stainless steel carbon filter for UV 40/60**
6. **One #90 Hurricane 5 micron filter**
7. **One #90 Hurricane 1 micron filter**
8. **One UV 5000 disinfection subsystem**
9. **One chlorine injector (optional)**
10. **TWT deposit control subsystem**

Skid Size:
Skid size is approximately 48"X66" crated, and ready to hook onto inlet and outlet with quick connect couplings.
Unit is crated to fit into the airplane cargo compartment.The TWT-UV-40 (40 GPM), TWT-UV-60 (60 GPM),
TWT-UV-75 (75 GPM), TWT-UV-220 (200 GPM) are the same in operation, just proportionally larger.

Custom Installation: Pricing to be established based upon proposal submitted at time of sale based on materials cost at time of purchase
Pricing case by case, must take into consideration:
• Shipping / Handling / Insurance • Installation/Cost (time frame) • Additional equipment needs (reinstallation)
• Any additional charges (redistribution point) • Consulting time, etc.a
*Custom built, size and weight to be determined at time of purchase

It's unwise to pay too much...but it's
worse to pay to little. When you pay too much,
you lose a little money...that's all. When you
pay too little, you sometimes lose everything,
because the thing you bought was incapable of
doing the thing it was bought to do. The common
law of business balance prohibits paying a
little and getting a lot...it can't be done.
If you deal with the lowest bidder, it is well to
add something for the risk you run, and if you
do that, you will have enough to pay for
something better. How many times have you
bought the cheapest and been disappointed when
it broke or failed to perform to your expectations?
And how many times have you bought the best
and been well pleased for a long time?
